

IPv6 Knowledge Base

IPv6 Application Conversion Tools

Last Updated May 25, 2021

Disclaimer: The presence of information in this list does not constitute an endorsement of that information or the developer of that information

This IPv6 application conversion information is divided into the following categories:

1 Information about IPv6 conversion tools and utility Software

2 Information about IPv6 conversion guidelines

3 Archival information (published or presented in 2007 and earlier)

General Information about IPv6 conversion tools, utility Software, and guidelines for converting applications:
This listing mentions several sources of available products. It does not attempt nor promise to be comprehensive.

NOTE: Terminology for IPv6 addresses has changed over time. Three changes of note in the terminology are:
(1) RIR policy for default prefix allocations changed from /35 to /32 in March 2002,
(2) site-local addresses were deprecated in September 2004 by RFC 3789, and
(3) unique local addresses were adopted in October 2005 by RFC 4193.

1 Information about IPv6 conversion tools and utility Software

Manufacturer, Vendor or Developer	Make, Model, or Series	Version with IPv6	Date of Support	Comments or Additional Information	Related Website
Antonios Gouglidis	PortToIPv6 Framework	initial release		framework is to amplify and accelerate the application-porting process during the transition period from IPv4 to IPv6	(https://sourceforge.net/projects/porttoipv6/)
Brian Phaley	IPv6finder	0.3	May-08	C source code examiner	(https://sourceforge.net/projects/ipv6finder/)
Broadcom Inc. (Formerly Computer Associates, Inc.)	CA Plex	r6.1	Dec-08	Architected rapid application development environment for Microsoft .NET Framework, J2EE and IBM iWeb with IPv6 support	(https://www.broadcom.com/products/mainframe/product-portfolio/plex)
Hewlett Packard Development Company (https://www.hp.com)	ipv6sniff		Dec-00	Utility program. Runs on HP-UX and Tru64 only. Source code for porting to other operating systems available.	(http://nixdoc.net/manuals/tru64/man8/ipv6sniff.8.html) (Archival copy of code and documentation available from IPv6 Knowledge Base administrator. Please contact ipv6-team [at] dren.mil.)
Intermapper (http://web.archive.org/web/20160715020442/https://bitbucket.org/intermapper/ipv6-validator)	IPv6 Test & Address Validation		Jan-15	source code for the tool available in RegEx, Perl, Ruby, and Java	(https://community.helpsystems.com/forums/intermapper/miscellaneous-topics/5acc4fcf-fa83-e511-80cf-0050568460e4)

24	IPv6 Compliant Automatic Runtime Environment (CARE)	IPv6 CARE	1.1	Dec-08	open source software tool for porting IPv4 code to IPv6. While an application is running CARE will log all non-IPv6 compliant system calls for analysis	(https://sourceforge.net/projects/ipv6-care/)
	Jake	Short IPv6 Validation in RegEx		Feb-12	short IPv6 RegEx in PHP, with link to several other languages	(https://mebsd.com/coding-snippets/php-regex-ipv6-with-preg_match-revisited.html)
25	Microsoft Corporation https://www.microsoft.com	checkv4.exe	Initial release 1-Dec-00		Utility program. Runs on Windows only. Its use is described at (https://docs.microsoft.com/en-us/windows/desktop/WinSock/using-the-checkv4-exe-utility-2)	(Archival copy of code and documentation available from IPv6 Knowledge Base administrator. Please contact ipv6-team [at] dren.mil.)
26		IPv6 Test Plan for Office 365	1-Mar-13		IPv6 Test Plan for Office 365 Component Functionality	(https://www.hpc.mil/images/hpcdocs/ipv6/office365_ipv6testplan.pdf)
27	Monforte Salvatore, EUChinaGrid	IPV6_Code_Checker	V1.0	Sep-06	a BASH script.	(http://web.archive.org/web/20140707093644/http://www.euchinagrid.org/IPv6/cod_checker.html)
28	Python Software Foundation	ipaddress	V3.3	Sep-12	IPv4/IPv6 manipulation library	(https://docs.python.org/3/library/ipaddress.html)
29	Sun Microsystems https://www.oracle.com/sun (an Oracle Corporation company)	Solaris IPv6 Socket Scrubber for C/C++	Dec-99		Utility program to analyze source code. Runs on Solaris\SPARC and Solaris\i386 only. Source code for porting to other operating systems available.	(Archival copy of code and documentation available from IPv6 Knowledge Base administrator. Please contact ipv6-team [at] dren.mil.)
