

HPCMP AI AND ML WORKSHOP

DOOLITTLE INSTITUTE - NICEVILLE, FLORIDA

24-27 JUNE 2024

THE WHO

This workshop is for all government and government contracted High Performance Computing AI and ML users working in the research, development, testing, and evaluation areas to develop AI and/or ML solutions using HPC services and capabilities provided by the HPC Centers within the DoD High Performance Computing Modernization Program.

THE WHAT

The Department of Defense High Performance Computing Modernization Program (DoD HPCMP) is providing the opportunity for HPC users working in the Research, Development, Testing, and Evaluation (RDT&E) HPC AI and ML area to join our Second Annual AI and ML Solutions Workshop in order to network with other HPC AI and ML researchers and developers, learn what's happening within the HPCMP surrounding HPC AI and ML, and provide feedback on utilized HPC services and capabilities to help build the future HPC AI and ML Ecosystem.

THE WHY

HPC AI and ML researchers and developers will get the opportunity to

- Participate in on-site training,
- Receive an out-brief of last year's processed feedback and subsequent actions,
- Hear from HPCMP Leadership with focus on ongoing and future AI and ML efforts,
- Network and collaborate with other HPC AI and ML researchers and developers,
- Learn how HPC AI and ML users are solving real-world problems,
- Share feedback on utilized HPC AI and ML services and capabilities,
- And much more!

If you have any questions, please feel free to reach out to your HPCMP AI and ML Ecosystem Project Manager, Dr. Lacey Duckworth, via Lacey.S.Duckworth@erdc.dren.mil or 601-634-3181. We hope to see you there!
